pronto100

The smallest, fastest, best quality ID card printer in its class.

MAGICARD

pronto100

Introducing the Magicard Pronto100

Do not underestimate its tiny frame. Designed from the ground up to be best in class: the powerful Pronto100 packs a mighty punch. With a focus on high speed, the highest quality and with the environment a key factor in every aspect of its design and manufacture, the Pronto100 has been developed to exceed the expectations of today's tech-savvy and connected consumer.

Bundled Magicard Design & Print software allows users to produce pin-sharp cards every time, while the CLIX Networked Monitoring user interface allows users to check dye film status, print a test card, set up a HoloKote® and more.

The result? A 21st century printer that incorporates Magicard's decades of card printer experience at a price point appealing to all sectors and which is made to last in Great Britain.

Small footprint – Small but mighty, the Pronto100 proves that the best things come in small packages. With its small footprint and light weight, the Pronto100 will fit into offices large or small while also being ideal for the home worker.

High speed – Quick to set up, quick to operate and quick to deliver the best results. The Pronto100 offers the highest print speed in Magicard's smallest printer package available today.

- HD photo quality   - 23 seconds per card
- Standard colour   - 18 seconds per card
- Monochrome   - 4.7 seconds per card

Quality – The Pronto100 packs a mighty punch delivering HD photo quality printing out of the box. Delivering photo-realistic colour reproduction, and with top-quality edge-to-edge printing guaranteed, your printed cards will never look so good.

Built-in simplicity – Despite its advanced features, the Pronto100 is no prima donna. Like all Magicard products, the Pronto100 has been designed to be low maintenance and has been built with the best quality materials in a world-class manufacturing facility. The Pronto100 will therefore require only limited support: users do not need a doctorate to use this printer.

Printer features

Standard   **Optional**

VISUAL SECURITY HoloKote®	High speed print	Optimised colour profiles	VISUAL SECURITY HoloPatch®
3 Years Ans Jahre Años Anni — Limited warranty	ABC Rewritable	clix Networked monitoring

**Available in the UK, EU, North America and other selected territories. Covers poor workmanship, manufacturing defects and component failure - conditional with use of approved Magicard consumables and observance of correct routine maintenance and frequency.

Commitment to the environment

Whether through carbon offset or actively seeking to reduce the individual footprint of devices, Magicard's approach is driven by recognition of the importance of environmental issues to consumers worldwide.

The Pronto100 marks the start of Magicard's move towards devices which have a high level of designed-in recyclability. All future devices will be built with this in mind.

The Pronto100 is manufactured and packaged from over 75% recycled or recyclable material.

Magicard's support of One Tree Planted sees the company plant a tree for every printer sold.

Since entering the scheme, Magicard has planted 30,000 trees resulting in a potential CO_2 offset of 660 tonnes p.a. This equates to the annual mileage of 150 cars or every journey undertaken by Magicard's global workforce for both personal and professional purposes and a significant proportion of our ground transportation for products worldwide.

Security built in

Digital shredding™ - once data has been used for the print job, it is fragmented, rendering it irrecoverable, helping to ensure the Pronto100 is not a repository for data.

Threat benchmarked - we run security scans against the comprehensive vulnerability assessment tool, Nessus Pro, one of the most widely deployed security technologies in the world and push regular updates to the device, ensuring that the printer software and associated system configuration conform to the highest levels of security.

Anti-fraud - the Pronto100 gives the option to print one of 3 standard HoloKote® watermarks on every card.
